## SMOKE FREE SCHOOL POLICY

Review: 2022

### RATIONALE

'Catholic schools can serve as models for all within Western Australia who seek to create genuine communities. Such communities are always founded upon shared commitment to the common good' (Mandate, paragraph 6, page 7).

The Tobacco Products Control Act 2006 legislates against smoking in enclosed public places and the Occupational Safety and Health Act 1984 requires an employer, so far as practicable, to provide and maintain a working environment in which the employees are not exposed to hazards.

Catholic schools in Western Australia are smoke-free environments due to the acknowledged health hazards of exposure to Environmental Tobacco Smoke (ETS) and to comply with legislative requirements. This policy statement addresses the issue of smoking in schools. In promulgating this policy, CECWA acknowledges that smoking can adversely affect the health of both smokers and nonsmokers.

### DEFINITIONS

Environmental Tobacco Smoke (ETS) is a combination of side stream smoke (smoke from the burning end of a tobacco product) and exhaled mainstream smoke (the smoke breathed out by the smoker).

### PRINCIPLES

- The legislative requirements of the Tobacco Products Control Act 2006 and the Occupational Safety and Health Act 1984 shall be adhered to in all Catholic schools.
- Catholic schools' formalise their commitment to providing a safe environment for all school users by going beyond the legislated smoking bans, in order to further minimise the acknowledged health hazards associated with ETS.
